Curriculum Vitae

SUMMARY

I was born in 15th October 1988. Married, father of two children. Enthusiastic linux user & rust developer. Fall in love with Open Source & Free Software. Hard working, creative, love to learn. Robust problem solving. Great communicator, love to lead dev teams & new projects. Interested in new technologies and mainly bring modern technologies into farming.

EDUCATION

UNIVERSITY OF DEBRECEN, HUNGARY 2008-2010

BUSINESS ADMINISTRATION AND MANAGEMENT, (MARKETING), BSC

GROUPE ESC TROYES, FRANCE 2010

INTERNATIONAL MARKETING, ERASMUS

UNIVERSITY OF DEBRECEN, HUNGARY 2010-2012

MANAGEMENT AND LEADERSHIP, CONTROLLING, MSC

UNIVERSITY OF DEBRECEN, HUNGARY 2012-2014

DOCTORAL SCHOOL OF ECONOMICS, MARKETING

- Started my PhD in viral marketing. Paused due to my CEO duties.

CEU, HUNGARY, UK 2016

GLOBAL BUSINESS FELLOSHIP

- Special CEU startup program for Startup CEOs

EXPERIENCE

WEBSHOP-EXPERTS LTD. 2010-2012

E-COMMERCE PROJECT MANAGER.

- Helped dev team about customer feedbacks; managed new products development; communication between devs and customers.

SLAMBY SEMANTICS LTD. 2012-2018

FOUNDER, HEAD OF PRODUCT DEVELOPMENT & CEO

- Opensource Machine Learning AI Startup Company, specialized in automated text categorization for classified ad sites. Main customer was Schibsted. I was responsible for company vision, sales, team motivation, product development. My daily core team job was being a scrum master, & helping the team to identify and integrate new technologies. Github repo: <https://github.com/slamby>

GARDENOVA LTD. 2018-present

HEAD OF NEW PRODUCT DEVELOPMENT

- Agricultural company, core activity is apple & sour cherry farming. Helped to find new business opportunities, found a new nice (fresh apple juice production). Build up sub-project and a new small apple juice manufacturing unit. Designed the whole IT backend to register and maintain LOTS. Built an internal ERP software using Rust and microservices. Designed and built an online store using TS and Nuxtjs.

GARDENZILLA LTD. 2021-present

FOUNDER, CTO

- Offline and online garden store. Designed and built up a robust backend ERP using Rust and microservice architecture. Built a POS using Rust, TS & Angular. Using Rust we had a 99.9% uptime, had no software related issues & achieved a very rapid product development without extra testing or maintenance.

SKILLS

PROGRAMMING LANGUAGES	Rust Javascript Typescript HTML CSS Bash Python Latex Makefile Dart RLang C
SOFTWARE	Linux Windows (95-11) OSX Microsoft Office Libre Office Matlab R Photoshop Inkspace Gimp
SOFTWARE DEVELOPMENT	Programming Paradigms GIT CLI Agile Methodology Scrum Full Stack
FRAMEWORKS & LIBRARIES	Warp Rocket Proto3 Angular Nuxt (Vue)

EXTRA

- Favourite linux distro: Fedora + Gnome
- Would love to, but had no time for it: learn guitar, finish my PhD
- My favourites: Star Trek (TV Series), Big Bang Theoriy (TV Series), Orwell 1984 (Book), John Lennon - Stand by me (Music)
